

# Neutron Sciences Call for Proposals

## Due April 13, 2016

Proposals for beam time at Oak Ridge National Laboratory's High Flux Isotope Reactor (HFIR) and Spallation Neutron Source (SNS) will be accepted via the web-based proposal system until **11:59 a.m. (EDT) Noon, Wednesday, April 13, 2016.**

This call is for experiments anticipated to run from July–December 2016.

### Information and instructions

To learn more about submitting a proposal for beam time, go to [neutrons.ornl.gov/users/](http://neutrons.ornl.gov/users/) or directly to the proposal system at [www.ornl.gov/sci/ioms/ipts/](http://www.ornl.gov/sci/ioms/ipts/). Previously submitted proposals may be used as the basis for new proposals. All proposals will be reviewed for feasibility, safety, and the potential for high-impact science. Before beginning approved experiments, users must complete access and training requirements and ensure that the appropriate user agreements are in place.
